WATER COUNTRY ANNOUNCES NEW DROP SLIDE “THE PATRIOT” FOR 2019 SEASON

Exhilarating new slide highlights Park’s 35th anniversary season celebration

Portsmouth, NH - May 27, 2019 – Water Country, New England’s largest water park is celebrating 35 years of fun in 2019 with the addition of its newest attraction – ***The Patriot***, an exhilarating free fall speed slide experience!

Opening early summer, The Patriot will stand tall and take brave riders to a towering height of 58 feet. Once they reach the top of the tower, they’ll enjoy a breathtaking view of the Park before sliding into a fully enclosed portion of the slide. Within seconds, riders will feel the rush of gravity as they plunge close to six-stories down the vibrant red, white and blue flume, all before making a huge splash in the runoff below!

“The addition of The Patriot further solidifies Water Country’s commitment to providing the largest variety of water park attractions at the absolute best value in the region,” said Paul Pisano, general manager for Water Country.

Construction of the new slide is currently underway. Those who can’t wait to ride this summer, can visit WaterCountry.com/ThePatriot for a chance to be the first official rider! The winner will receive a commemorative photo, bragging rights, and a chance to be enshrined in Water Country history.

Located next to the Park’s Triple Giant Slides, The Patriot replaces the former Geronimo attraction and maintains a similar experience that Water Country guests have grown to love.

Water Country will open its gates for its exciting 35th anniversary season at 10:30 a.m. on Saturday, June 8. Discounted admission tickets for opening weekend are just \$35 for guests 48 inches and taller, and \$19.84 for guests under 48 inches, a nod to the Park’s 1984 opening. For more information, including information on Season Passes, visit WaterCountry.com.

About Water Country and Palace Entertainment

Water Country has been providing wholesome family fun for over 30 years as a NH landmark and remains the largest, cleanest, safest and friendliest water park in New England.
